

MD. ARIFUL ISLAM

Management Trainee Officer (Operations) – AKIJ Resource
+8801758767967 | islamariful384@gmail.com | [LinkedIn](#) | Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Supply Chain and Operations Analyst with experience in production planning, demand forecasting, and data-driven decision-making across 9+ business units at AKIJ Resource. Proven track record of improving planning accuracy (85%), optimizing logistics operations, and automating reporting using Power BI. Skilled in Python, SQL, and Advanced Excel to analyze large datasets, improve supply chain efficiency, and support KPI-driven business performance. Strong background in Lean Six Sigma, continuous improvement, and cross-functional collaboration within FMCG & heavy industry manufacturing environments.

WORK EXPERIENCE

UFLDP Management Trainee Officer – Operations (Planning) February 2026 – Present
 **AKIJ Resource** | Dhaka, Bangladesh

Key Responsibilities:

- Developed and maintain a **Production Planning Module** for Building Solutions through demand forecasting and structured scheduling.
- Built and manage **Power BI dashboards** for AKIJ Ispat, Essential Flour Mill, and Agro Feed, enabling real-time production monitoring, OEE tracking, and root-cause analysis.
- Implementing a **Smart Delivery Tracking System** for RMC and Asphalt operations, improving routing efficiency and dispatch visibility.
- Supports **9+ SBUs** with operational planning, aligning production plans with business targets and review cycles.
- Track and report KPIs (output, capacity utilization, downtime, on-time delivery) and led performance review discussions.
- Applying **Lean Six Sigma (VSM, 5-Why, DMAIC)**
- Collect, clean, and analyze large operational datasets using Python and PowerBI; translate insights into recommendations for management decision making.

Key Achievements:

- Developed Production Planning Module for Building Solution clusters **achieving average planning accuracy of 85%**.
- Built and deployed integrated Power BI dashboards for 3 SBUs (AKIJ Ispat, AKIJ Essential Flour Mill, AKIJ Agro Feed) — **significantly reducing reporting cycle time up to 15% and enhancing production visibility**.
- Integrated Smart Product Delivery Status tracking for RMC & Asphalt, **enabling truck routing optimization and improving on-time delivery visibility**.
- Identified and resolved production bottlenecks through Lean and Six Sigma interventions, **delivering measurable workflow efficiency improvements**.

NextGen Intern – Operational Excellence (OPEX), Planning October 2025 – January 2026
 **AKIJ Resource** | Dhaka, Bangladesh

- Analyzed production workflows to identify 25%+ efficiency improvement opportunities by minimizing bottlenecks and waste through Lean and Six Sigma tools.
- Collected, cleaned, and visualized large datasets on productivity, downtime, and quality to support data-driven operational decisions.
- Collaborated with cross-functional teams to execute improvement projects, track KPIs, and document standardized best practices for sustained performance.

Trainee Intern – Production Operations March 2024 – April 2024
 **Ha-Meem Group** | Dhaka, Bangladesh

- Gained hands-on experience across 4 production departments: Fabric Inspection, Cutting, Sewing, and Finishing in denim (jeans) manufacturing.
- Prepared line balancing sheets by observing operational efficiency metrics and identifying improvement factors.

EDUCATION

B.Sc. in Industrial & Production Engineering (IPE) December 2020 – December 2025
Ahsanullah University of Science & Technology (AUST) | CGPA: 3.43 / 4.00

Higher Secondary School Certificate (HSC) – Science May 2017 – April 2019
Feni Government College | GPA: 4.50 / 5.00

Secondary School Certificate (SSC) – Science January 2012 – March 2017
Feni Government Pilot High School | GPA: 4.68 / 5.00

HONORS & AWARDS

- **Champion** – Final Year Thesis Poster Presentation, AUST (2025)
- **1st Runners Up** – Hult Prize at AUST (2025)
- **Champion** – Excel Square, Inter-University Excel Competition (IPE Legacy15)
- **National Round** – HSBC Business Case Competition (2025)
- **3rd Place** – Human Factors & Ergonomics Competition, 15th IEOM International Conference, Singapore
- **Winner (70% Scholarship)** – ISCEA Global Supply Chain Competition (2024)
- **Finalist** – Innoventure 25, Intra-University Tech-Biz Competition, AUST
- **1st Place** – IPE Product Showcasing, Spring 2023
- **2nd Round** – GP Futuremakers AI Competition, Grameenphone
- **Finalist** – 3MT National Thesis Competition, Elite Research Lab LLC

SKILLS

Data & Analytics: Power BI, Python, SQL, Microsoft Excel (Advanced), Data Visualization, Dashboard Reporting

Operations & Process Improvement: Lean Manufacturing, Six Sigma (DMAIC), Production Planning & Control, KPI Monitoring, Root Cause Analysis, Capacity Planning, Continuous Improvement, SOP Development, Supply Chain Management

Technology & Software: Microsoft Office Suite, SolidWorks, Canva, n8n basic (AI Agent Automation), Machine Learning, Industrial Internet of Things (IIoT)

Professional Skills: Stakeholder Management, Cross-functional Coordination, Strategic Planning, Decision Making, Logistics Planning, Leadership

PROJECTS & THESIS

ML-Based Dengue Outbreak Hospital Management & Resource Allocation System

2024 – 2025

- Developed an integrated Machine Learning approach for proactive Dengue Outbreak Hospital Management and Resource Allocation in Dhaka South City Corporation. Claimed **Champion at AUST Final Year Thesis Poster Presentation 2025**.

Multipurpose Ergonomic Cart – Product Design

2023

- Designed an ergonomically optimized multipurpose cart applying Human Factors and Industrial Engineering principles to reduce operator fatigue and improve usability.

CERTIFICATIONS

- Data Analyst Job Ready Bootcamp – Data Solution 360 (2024)
- AI for Everyone – Coursera (2023)
- Excel Skills for Business: Specialization – Coursera (2023)
- Industrial Internet of Things – Coursera (2023)
- Agile Project Management – HP Life (2024)
- Circular Economy – HP Life (2024)
- Essential Canva Course for Graphic Design – Udemy (2022)

Industrial Exposure

City Group – Industrial Attachment

7 Days

- Became acquainted on production line segments and factors of operational efficiency along with flour production process flow and layout design

EXTRACURRICULAR ACTIVITIES

Director – Innovation & Design Wing

August 2025 – December 2025

AUST Career Development Club

- Led design operations, drove 30% increase in social media engagement, and organized AUST National Job Fair 2025.
- Create static design for the club activities, share innovative thoughts on operational efficiency and administrating teams based on incoming events, facilitate design wing to create eye catchy designs. encourage people to get connected with club events which increased **social media engagement by 30%**. **Organized AUST National Job Fair 2025**

General Secretary

January 2025 – May 2025

IEOM Society – AUST Student Chapter

- Maintained accurate records of society activities, communications, and member. Organized & played pivotal role on BaseCAMP & InnovaTrix: An Intra University Tech-Biz Competition
